

VOTE OF THANKS TO THE BOARD OF EXAMINERS

It was moved by Mr. MacDonald and seconded by Mr. A.S. Gentles that the very warmest thanks and appreciation of the Council be extended individually to the members of the Board of Examiners.

Mr. MacDonald remarked that wonders could be accepted without any surprise being felt or gratification being expressed by the world at large if such wonders only evolved slowly, and there was no doubt that an evolution warranting the term revolution had occurred in the Profession in British Columbia. Only five years ago it seemed an utter impossibility that people could be persuaded to obtain membership by examination, but due to the unswerving support of the Board of Examiners, their patience in dealing with the numerous complex cases, this striking change has occurred.

All the members present warmly expressed their indebtedness to the Board of Examiners and concurred in an individual letter being sent to each member.
